

Where do I find Lifecycle Roadmaps?

Lifecycle Roadmaps are accessible via the “Lifecycle Roadmaps” menu item within the Business Architecture module. Additionally, lifecycles can be assessed from the “View” tabs of respective items.

Can I create lifecycle for anything?

Lifecycles can be created for Capability, Applications and Systems

How do I create a Lifecycle?

1. Go to the “Model” tab of the respective item
2. Select the item for which you want to create a lifecycle
3. Navigate to the “xx Lifecycle” tab
4. Use the “+” button in the grid to create new lifecycle rows. Refer to [Grid](#) for more details on how to use the grids in Jalapeno.

Additionally, lifecycles can be created by using the “Add xx Lifecycle” button in the respective roadmaps.

How do I attach a color palette for the lifecycles?

Color palette can be set for the value set under “Lifecycle Name” column and attached to each lifecycle to view the colors. Refer to [Heatmap setup](#) and [Value Sets](#) for more details.
