How do I add additional information to each policy?

When you click on a selected policy within the tree, navigate to the ‘Detail’ sub-tab.

Here you will find a variety of properties that can be associated with the policy. You can align the policy to other areas of Jalapeno that have already been modelled.

What are the essential parts of a policy that need to be modelled?

There is very little in Jalapeno that is mandatory. You may model as little or as much as is needed. However, to view strategic implications of policies, it needs to align with strategies and/or goals. To view the controls in place to manage the policy within the organization, the policy needs to align to requirements (controls) that in turn, relate to rules and operating model elements within the Jalapeno model.

Where do I find legislation in Jalapeno?

Legislation can be found within the Strategy module of Jalapeno. Select the “Set Legislation and Policy” menu item to access legislation.

How do I add legislation?

Navigate to the ‘Model’ tab and ‘Detail’ subtab to add legislation. Legislation can be added individually via a tree by selecting the  icon in the top left corner and selecting type as ‘Legislation’.
